

Digital Literacy Awareness

What is Digital Literacy?

The ability to find, evaluate, create, and communicate information safely and ethically using digital technologies. It's about being smart, responsible, and critical online.

Useful Digital Tools for Students

Note-Taking Apps

Organize your thoughts & study materials

Research Tools

Find reliable information & data sources

Organization & Planning

Manage deadlines, tasks & schedules

Safe Internet Practices

Think Before You Click:
Check links and sources for authenticity.

Use Strong Passwords: Create unique, complex passwords & enable two-factor authentication.

Be Kind Online: Practice good digital citizenship and respect others.

Protect Personal Information:
Be cautious about sharing private data and settings.
